Forecast for Saturday 13 Mar 2021

Weather: Long periods of heavy rain and hill snow overnight with blizzards on the tops. A mixture of bright intervals and frequent snow showers through the day, mainly falling as rain or sleet in the valleys. Some showers will be heavy with hail and possibly thunder. Showers becoming less frequent through the evening.

Chance of cloud free mountain/hill tops above 600m: 10% overnight then 40-60% during the day.

Visibility: Very poor at height overnight. Frequent cloud above 600m, occasionally down to lower slopes in showers. Excellent between showers, especially in the east. Visibility quickly changing as showers pass through but you will see these approaching from the west during the day.
